

Galvotec®

The ANODE Company

ALUMINUM • ZINC • MAGNESIUM ANODES

ISO Certified 9001: 2008 by DNV

More than
30 Years of
Excellence

Since 1984, Galvotec... manufacturing
premium quality sacrificial anodes

AC Mitigation

Any Metallic (usually steel)

Structures in Contact with Soil or Water

Ballast Tanks

Barges

Boats

Boilers

Bulkheads

Buried Structures

Chemical Storage & Process Containers

Condensers

Docks

Fishing Nets/Traps

Floating Production Vessels

Gas Service Entrance Piping

Gates for Dams

Grounding Cells

Heat Exchangers

Heater Treaters

Hulls

Locks

Offshore Structures

Onshore Structures

Piers

Pilings

Pipelines

Platforms

Ships

Submarines

Subsea Equipment

Tank Bottoms

Tanks

Travel Screens

Tugs

Water Heaters

Water Separation Vessels

Water Storage Tanks

to protect structures all over the world
from corrosion

Galvotec®

**If you want peace of mind for 20, 30, or 50 years
...Specify Galvotec Anodes!**

Producing Sacrificial Anodes since 1984, Galvotec has proven experience and proven integrity. Because of our longevity and reliability along with our talented group of professionals, Galvotec is universally recognized as one of the leading anode manufacturers in the world. Our extreme dedication to quality and continuous improvement has elevated us to the superior position we hold in the industry.

Our technical capabilities are unmatched. With production facilities specifically designed for the efficient manufacturing of sacrificial anodes along with our analytical and quality departments we can assure full compliance to any industry standard or specification, on time, every time.

Industry specifications that Galvotec Anodes are manufactured to and conform to include: ASTM, DNV, ISO, N.A.C.E., Military Specifications, Shell Specifications, and other industry requirements specified by our customers.

Our customers are our best references. We have satisfied and repetitive customers throughout the world in the Marine, Oil and Gas, Military, and Industrial sectors. Our name and reputation is a direct reflection of the high standard of quality that our products are manufactured to.

*More than 30
Years of Excellence*

ALUMINUM ANODES: Galvotec III, Galvotec CWIII, Mil-A-24779
Specify these alloys for marine/offshore needs or cold deepwater applications

ZINC ANODES: ASTM B 418 Types I and II, Mil-A-18001
Specify these alloys for soil* and marine applications

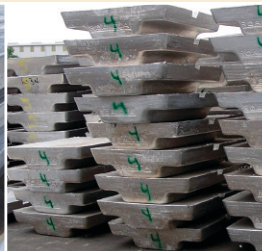

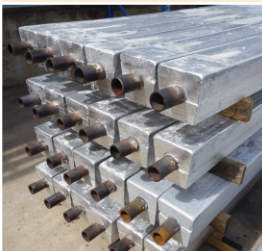

MAGNESIUM ANODES: ASTM B 843 Types M1C/SuperMAG™, H1A, H1B, H1C, Mil-A-21412A
Specify these alloys for soil*, marine, condenser, and fresh water applications

MAGNESIUM RIBBON ANODE: ASTM B 843 M1C/SuperLINE™
Specify SuperLINE™ for soil applications

EXTRUDED MAGNESIUM ANODES: ASTM B 107 AZ31D/SuperROD™
Specify SuperROD™ for magnesium water heater applications*

* NSF/ANSI Certified to Std.- 61 Potable water use

- Established and privately owned since 1984
- ISO 9001:2008 Certified by DNV
- Gold Medal approved supplier to the U.S. Dept. of Defense - NAVSEA QPL-24779
- Compliant to DNV RP-B-401
- Approved supplier to Shell Qualified as per Shell DEP 37.81.20.31-EPP
- NSF/ANSI Certified Magnesium and Zinc Products for use in potable water systems as per STD-61
- Analytical laboratories that surpasses any other anode manufacturer for chemical and electrochemical testing and R&D of sacrificial anodes
- Experienced, dedicated staff of engineers, technologists, technicians, foundry men and women, and superior sales team that provide the highest quality products and the ultimate in customer support in the industry
- Gold level Sponsor of N.A.C.E.
